ABOUT ME

My career started in sales in CE. I was selling cameras, RTV products and games. Since the beginning of 2020 I decided to move my career to a completely different direction and started to learn programming. I am constantly improving my knowledge by practicing writing code in JavaScript with Frameworks and popular libraries. I'm quick learner and hungry for knowledge and experience.

COURSES

JavaScript from scratch and React

CODE:ME

JavaScript and React with Redux for programmers

CodersLab
